Introduction to Generative AI

Ashwani Kalyanakar

Future-Ready HR Manager | Learning AI for HR • Recruitment Automation & People Analytics Explorer • Building Smarter HR Workflows @ GranuAqua

India

Summary

HR is evolving, and so am I.With a strong background in recruitment, training, and HR operations, I'm now learning how AI and automation can make these processes smarter and more human-centric.I don't claim to be an expert yet, but I'm deeply curious, hands-on, and committed to experimenting, testing, and sharing what works. Current journey:• Applying AI tools in recruitment workflows• Learning data analytics to understand hiring patterns• Experimenting with automation tools for HR efficiencyI believe the best HR professionals of tomorrow are those learning AI today.Open to connect, collaborate, or just exchange ideas on AI-driven HR and people analytics.
